1 Anaplan Connector for Mulesoft Release Notes

Release Notes for Version 1.1.2 of the Anaplan Connector for Mulesoft. These Release Notes accompany the **Anaplan Connector for MuleSoft Guide** at

<https://github.com/anaplaninc/anaplan-mulesoft/raw/master/doc/AnaplanConnectorforMuleSoft-Guide.pdf>

1.1 COMPATIBILITY

The **Anaplan Connector for Mulesoft** is compatible with:

- Mule Version 3.5 and higher
- Anypoint Studio 5 or higher

1.2 FEATURES

For building a flow that performs any of the following:

- Export - Exports Lists, Line-Items, Modules from Anaplan.
- Import - Import Lists, Line-Items, Modules into Anaplan
- Delete - Execute Action (a delete)
- Process - contains multiple model-to-model Import actions, or multiple Delete actions

1.3 FIXED IN THIS RELEASE

06-Aug-2015 Bug-fix for anaplan-connect and dependency resolution.

26-May-2015 Release Notes Missing - Release Notes have been added. Anaplan Connector for MuleSoft Guide Did Not Mention Process - The Guide has been updated. ReadMe Did Not Mention Process - The ReadMe has been updated.

1.4 KNOWN ISSUES

A Process has the following limitations:

- Multiple imports must be model-to-model rather than from a source or file that is external to Anaplan.
- Multiple exports are not supported. The workaround for these limitations is to use Anaplan Connect.

1.5 SUPPORT RESOURCES

- Anaplan REST API for Integration and User Administration at <https://community.anaplan.com/anapedia/integrations/data-integration/anaplan-api-guide>
- Anaplan REST API for Integration and User Administration at <http://docs.anaplan.apiary.io/#>

We welcome enhancement requests and bug reports at <https://github.com/anaplaninc/anaplan-mulesoft/issues>.
